

RICHBOROUGH

ISSUE 2 MAY 2011

ENERGY PARK

Low Carbon Renewable Energy to Power Kent

Dear Resident

Further to the newsletter sent last month, I am writing to invite residents to a public exhibition to view our current proposals to regenerate the former Richborough Power Station site.

The exhibition will take place on Friday 20th May from 3.30pm to 7.30pm in Minster and Saturday 21st May from 9.30am to 12.30pm in Sandwich, (details of both venues overleaf). The exhibition will display our proposals to regenerate the site and members of the development team will be available to answer any questions that you may have about the plans.

The purpose of the exhibition is to give residents the opportunity to view the proposals at an early stage prior to submitting a planning application to the planning authority.

If you are unable to attend the exhibition, the exhibition information will be available via our website from Monday 23rd May:
www.richboroughenergypark.co.uk.

Kind regards,

Gary Lever
Development Director

TELL US WHAT YOU THINK

If you have not yet completed our online survey,
please visit our website to do so: www.richboroughenergypark.co.uk

RICHBOROUGH ENERGY PARK

Low Carbon Renewable Energy to Power Kent

Please visit our exhibition:

Minster-in-Thanel
CT12 4EA

Date: Saturday 21st May 2011
Time: 9.30am to 12.30pm
Venue: The Bell Inn Hotel
The Quay
Sandwich
CT13 9EF

Thank you to residents who responded to our online survey last month. This has helped to give us an overview of the local issues that we need to understand as we develop the masterplan.

To date:

- 80% of respondents said that they would like to see the site brought back into use.
- Environmental improvements were identified as the most important benefit from regenerating the site, with generating renewable or green energy, regeneration and job creation also scoring highly

- Emissions were the issue that residents were most concerned about, followed by environmental impact and then ecology and wildlife.

Throughout the consultation process we will work with local residents to ensure our scheme reflects your views. We hope that you will be able to attend one of our exhibitions this month.

If you are unable to attend or would like further information, please look at our website which will be updated following the public exhibition www.richboroughenergypark.co.uk.

If you have any further questions, please contact Emma Waterfall on 020 7868 5530 or email richboroughinfo@cascadepr.co.uk.
